

ROCK 525/625

Congratulations on purchasing your new Rock 525/625 loudspeakers, we hope that you are completely satisfied with them.

Please take a short time to study the following information, this will ensure that you gain maximum pleasure from this product.

You should have the following items within the box:

2 x rock speakers, each fitted with 10m cable
1 x warranty card
1 x instruction leaflet

No other connectors are included with these items.

UNPACKING

Ensure that you keep the original packing in case you need to transport the speakers at any time.

When unpacking, please check for any damage which may have occurred in transit. Inform your supplier immediately if there is a problem.

PLACEMENT

These rock speakers are designed to be weather resistant, however they are NOT waterproof. Therefore it is recommended that the placement of these speakers is not directly in water, or in the line of flowing water. Immersion in water will cause this unit to fail, and possible damage to associated equipment may result.

CONNECTING YOUR LOUDSPEAKERS

Before connection commences ensure that the amplifier and all associated equipment is 'SWITCHED OFF'. Each speaker is supplied with 10 metres of black sheaved cable, please check that this outer sheaving is not damaged. During the manufacturing process, the inner cores of this cable are exposed and stripped in preparation for connection to a suitable audio amplifier.

The two inner cores are colour coded to indicate polarity, the red core is used for the positive (+) connection, and the black core is used for the negative (-) connection. These should be connected to the representative output connectors on the rear of a suitable audio amplifier. PLEASE ENSURE THAT BOTH SPEAKERS ARE CONNECTED CORRECTLY, AND THAT POLARITY HAS BEEN ACHIEVED. Failure to do this may result in inferior sound as phase cancellation will occur.

Please refer to the drawing opposite which illustrates the connection of these cables. If you are in doubt please seek professional advice.

GUARANTEE

Acoustic Solutions' products are covered by a one year guarantee against manufacturing defects, please ensure you return the enclosed card to facilitate your warranty. In the event of any problems please contact your supplier initially who will advise you on this subject. This does not affect your statutory rights.

HELPLINE

If at any time you are unsure about the installation or operation of your loudspeakers, please contact our Helpline on : +44 (0) 1327 340601. Please be advised that this line is operational between 09:00hrs and 16:30hrs, Monday to Friday.
